Claims 1-5 are allowed.

The following is an examiner's statement of reasons for allowance: the vertebral stabilizer comprising first and second brackets and plates with an intervertebral disk member disposed between that interlocks with only one interlocking member at the front end and only one interlocking rear end of the disk member was found to be novel. The prior art did teach spinal implants with brackets and plates that interlock in a central location only, but failed to teach the combination of features with the interlocking of the disk member only at the front and rear end.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
